

# Owner Letter – Early Manufacture Approval for Vaults

City of Los Angeles

Dept. of Public Works – Bureau of Engineering

\_\_\_\_\_ District

\_\_\_\_\_

\_\_\_\_\_

(Date)

To Whom It May Concern:

I am the owner of the property located at \_\_\_\_\_, for which utility construction is to be provided by LADWP, under a City of Los Angeles U-Permit Ref #\_\_\_\_\_. The construction requires that (#) vault(s), (indicate type, size, etc...), be manufactured for placement in the ( roadway/sidewalk ), as indicated in the attached approval from LADWP. I would like to request that the vault(s) be inspected by the City through the B-Permit process to allow for manufacture prior to the issuance of the U-Permit associated with said installation.

I acknowledge that the plans associated with the corresponding vault(s) has(have) not yet been approved by the Bureau of Engineering and may not be approved as submitted.

I assume full risk and liability should the vault design not be approved for manufacturing and installation.

I agree not to stockpile the vault(s) on site or to install the vault(s) until the U-Permit has been issued.

Signed,

\_\_\_\_\_
